

TeleFlow CRM

Admin Guide

For: System Administrators & Team Managers

Last Updated: May 2026

Version: 1.0

Table of Contents

- 1. Admin Overview**
- 2. System Setup & Configuration**
- 3. User Management**
- 4. CSV Lead Import System**
- 5. Lead Assignment System**
- 6. Monitoring & Dashboard**
- 7. Team Performance**
- 8. Daily Operations Workflow**
- 9. Reports & Analytics**
- 10. Troubleshooting & Maintenance**
- 11. Best Practices**

1. Admin Overview

Admin Role & Responsibilities

As an **Admin**, you control:

ADMIN PERMISSIONS & RESPONSIBILITIES

 User Management

- ─ Create telecaller accounts
- ─ Assign roles & permissions
- ─ Manage team membership
- ─ Monitor user activity

 Lead Management

- ─ Import CSV lists
- ─ Validate & process leads
- ─ Distribute to team
- ─ Track lead status

 Performance Monitoring

- ─ View dashboard metrics
- ─ Analyze conversion rates
- ─ Monitor call volumes
- ─ Generate reports

 System Management

- ─ Manage import batches
- ─ Archive/complete batches
- ─ Configure settings
- ─ Handle technical issues

 Security & Access

- ─ Control data access
- ─ Ensure compliance
- ─ Audit activity logs
- ─ Prevent unauthorized access

Admin Panel Access

How to Access Admin Features:

1. **Log in with admin account**
 - Use credentials provided during setup
 - First full admin was created by Firebase
2. **Navigate to Admin Panel**
 - Click your name → "Admin Panel"

- Or go to `/app/admin` URL directly
- Left sidebar shows admin-only routes

3. Admin Dashboard

- Central hub for all management
- Quick access to all admin features
- Real-time team metrics

2. System Setup & Configuration

Initial System Setup Checklist

Pre-Launch Setup

Week 1: Foundation

- ☐ Verify Firebase project is active
- ☐ Configure Firestore database
- ☐ Deploy Firebase Security Rules
- ☐ Set up CORS for hosting domain
- ☐ Configure email/notifications

Week 2: Master Admin Account

- ☐ Create master admin user (Firebase Auth)
- ☐ Document credentials securely
- ☐ Test admin login
- ☐ Set admin profile details
- ☐ Enable 2FA (optional but recommended)

Week 3: Initial Configuration

- ☐ Customize company name
- ☐ Add company logo
- ☐ Configure default settings
- ☐ Set up email templates
- ☐ Test CSV import with sample data

Week 4: User Management

- ☐ Create test telecaller accounts
- ☐ Test role-based access
- ☐ Create first batch of leads
- ☐ Distribute to test team
- ☐ Run through full workflow

Firebase Prerequisites

Before Running TeleFlow CRM:

1. Firebase Project Created

```

Firebase Console → Create Project
├─ Project Name: teleflow-crm
├─ Enable Google Analytics (optional)
└─ Create project

```

2. Firebase Authentication Enabled

```

Firebase Console → Authentication
├─ Enable Email/Password provider
├─ Disable Google Sign-in (optional)
├─ Set up password policy
└─ Configure security settings

```

3. Firestore Database Initialized

```

Firebase Console → Firestore
├─ Create database in production mode
├─ Start in production mode
├─ Choose region closest to you
└─ Note: Default rules deny all access

```

4. Security Rules Deployed

```

Firebase Console → Firestore → Rules
├─ Copy firestore.rules from repo
├─ Paste into editor
├─ Review rules structure
├─ Publish rules
└─ Verify permissions work

```

Environment Configuration

Set Up Environment Variables: Create `.env.local` file in project root:

```

# Firebase Configuration
VITE_FIREBASE_API_KEY="AIzaSy..."
VITE_FIREBASE_AUTH_DOMAIN="teleflow-crm.firebaseio.com"
VITE_FIREBASE_PROJECT_ID="teleflow-crm"
VITE_FIREBASE_STORAGE_BUCKET="teleflow-crm.appspot.com"
VITE_FIREBASE_MESSAGING_SENDER_ID="123456789"
VITE_FIREBASE_APP_ID="1:123456789:web:abcdef123456"

# Application Settings
VITE_APP_NAME="TeleFlow CRM"
VITE_APP_URL="https://your-domain.com"
VITE_ADMIN_EMAIL="admin@company.com"

```

Where to find these values:

1. Go to Firebase Console → Project Settings (gear icon)
2. Scroll to "Your apps" section
3. Find web app

4. Copy credentials from "firebaseConfig"

5. Paste into `.env.local`

Initial Master Admin Setup

One-time setup for first admin:

1. Firebase Console → Authentication

```

Firebase Console → Authentication → Users
├ Click "Add User"
├ Email: admin@company.com
├ Password: (strong random password)
├ Create user
└ Copy the generated UID
```

2. Create Admin Record in Firestore

```

Firebase Console → Firestore
├ Collection: "users"
├ Document ID: (paste the UID from above)
├ Add fields:
│   ├── email: "admin@company.com"
│   ├── fullName: "Admin Name"
│   ├── role: "admin"
│   ├── status: "active"
│   ├── createdAt: (current timestamp)
│   └── lastLogin: (current timestamp)
└ Save
```

3. First Login

```

Go to app URL
├ Login with email/password
├ You'll see admin dashboard
├ Verify all permissions work
└ Change password in settings
```

4. Store Credentials Securely

- Save master admin password in secure vault
- Only share directly with trusted person
- Document recovery procedure
- Enable 2FA if available

3. User Management

Creating Telecaller Accounts

Step-by-Step Account Creation

Via Admin Panel:

1. Navigate to Users Page

- Click "Users" in left sidebar
- Or from Dashboard → "Manage Users"

2. Click "Add New Telecaller"

Admin Panel → Users → [+Add Telecaller Button]

3. Fill in User Information

Create New Telecaller

Full Name: * |

[John Kumar]

Email: * |

[john@company.com]

Phone: (optional)

[98765-43210]

[Create Account]

4. System Auto-Generates Password

- Password created automatically
- Shown only once - document it!
- Share via secure channel to user

5. Account Activated

- Telecaller can now login
- Send them credentials + welcome message
- They can change password on first login

Account Details Reference

Field	Purpose	Requirements
Full Name	Display name in system	2-50 characters, required
Email	Login credential	Valid email, unique, required
Phone	Contact information	10-13 digits, optional
Role	Permission level	"admin" or "telecaller"
Status	Active/Inactive state	active = can login

Managing Existing Users

View All Users

Admin Panel → Users → List
Shows table:

- └ Name
- └ Email
- └ Phone
- └ Role (Admin/Telecaller)
- └ Status (Active/Inactive)
- └ Leads Assigned (count)
- └ Calls Made (count)
- └ Actions (Edit/Deactivate/View)

Edit User Information

1. **Click user row** → "Edit"
2. **Update fields** you want to change
3. **Can modify:** Full Name, Phone Number, Status (Active/Inactive)
4. **Cannot modify:** Email (for security), Role (must delete/recreate)
5. **Click "Save Changes"**

Deactivate User (Don't Delete!)

Why deactivate instead of delete? Preserves their call history, Maintains data integrity, Can reactivate easily, Audit trail stays intact.

How to deactivate:

1. **Find user in list**
2. **Click three-dot menu** → "Deactivate"
3. **Confirm action**

"Reassign their leads before deactivating?
john@company.com has 15 assigned leads.

[View Leads] [Deactivate Anyway]"

4. **Reassign their leads** (recommended)
5. **Confirm deactivation**

When user is deactivated: Cannot login anymore, Remains in database, Their history is preserved, Leads can be reassigned.

Reactivate a User

1. **Find inactive user** in users list
2. **Click three-dot menu** → "Reactivate"
3. **Confirm action**
4. **User can login again**

Reset User Password

1. **Find user** in users list
2. **Click menu** → "Reset Password"
3. **Generate temporary password**
4. **Send to user securely**
5. **User changes at first login**

User Status Management

Status	Meaning	Can Login	Can Receive Leads
 Active	Normal state	Yes	Yes
 Inactive	Disabled account	No	Can reassign existing
 On Leave	Temporarily unavailable	Optional	No new assignments
 Terminated	Left company	No	Leads reassigned

Batch User Import (Advanced)

1. **Prepare CSV file:**

```
full_name,email,phone
John Kumar,john@company.com,98765-11111
Priya Sharma,priya@company.com,98765-22222
Amit Patel,amit@company.com,98765-33333
```

2. **Upload in Admin Panel** → "Bulk Import Users"
3. **System creates all accounts**
4. **Export credentials CSV for distribution**

4. CSV Lead Import System

Preparing Your CSV File

CSV Format Specification

Required Columns:

customer_name	(string, required, 1-100 chars)
mobile_number	(string, required, 10-13 digits)

Optional Columns:

city	(string, optional, max 50 chars)
interested_service	(string, optional, max 100 chars)
priority	(string, optional: High/Medium/Low)
remarks	(string, optional, max 500 chars)

Sample CSV Template

```
customer_name,mobile_number,city,interested_service,priority,remarks
Rajesh Kumar,9876543210,Mumbai,Broadband Internet,High,Interested in 100Mbps plan
Priya Sharma,9823456789,Bangalore,Mobile Plan,Medium,Need to discuss with husband
Amit Patel,8765432109,Delhi,Data Plan,Low,"Switching provider, compare plans"
Neha Singh,7654321098,Pune,Internet Bundle,High,"Urgent - leaving town in 2 days"
Vikram Desai,9999888777,Chennai,Fiber Connection,Medium,"Already customer, upgrade available"
```

Data Validation Rules

Mobile Number:

✓ Valid:

- └ 9876543210 (10 digits)
- └ 98765432101 (11 digits)
- └ 919876543210 (12 digits with country code)
- └ +919876543210 (13 chars with +)

✗ Invalid:

- └ 12345 (too short)
- └ 98765432101234 (too long)
- └ ABC-1234567 (non-numeric)
- └ 0000000000 (all zeros)

Customer Name:

✓ Valid:

- └ John Kumar
- └ Raj Kumar Singh
- └ Priya
- └ Amit & Co

✗ Invalid:

- └ (blank)
- └ @ # \$ % (special chars only)
- └ (over 100 chars)

Priority:

Valid values (case-insensitive):

- └ High / HIGH / high
- └ Medium / MEDIUM / medium
- └ Low / LOW / low

If blank: defaults to "Medium"

Creating CSV from Excel

1. **Open Excel/Google Sheets**
2. **Create columns:** customer_name, mobile_number, city, etc.
3. **Enter your data**
4. **File → Export As → CSV (.csv)**
5. **Save with descriptive name:** Leads_2026-05-12_Mumbai.csv

Common CSV Mistakes to Avoid

Wrong:

- └ Missing header row
- └ Inconsistent columns
- └ Phone number with spaces/dashes
- └ Leading zeros in mobile (except +91)
- └ Duplicate mobile numbers

Right:

- └ First row has headers
- └ Consistent data types
- └ Numeric phone numbers
- └ Standardized format
- └ Review before importing

Importing Leads Step-by-Step

Step 1: Open Import Page

1. Click "Import Leads" in left sidebar
2. Or Dashboard → "Import New Batch"
3. You'll see Import Leads page

Step 2: View CSV Template

Import Leads

Sample CSV Format
[Download Sample CSV] ↓

Step 1: Select File

[Drag CSV here or Click]
to browse files

1. Click "Download Sample CSV" (Gets template with proper format)
2. Keep sample for reference or use as starting point

Step 3: Upload CSV File

Option A: Drag & Drop - Prepare CSV file on your computer, Drag file to upload area, Drop it in the box, Upload begins automatically.

Option B: Browse & Select - Click upload area, File browser opens, Navigate to your CSV file, Click "Open" or "Select", Import begins.

Step 4: Review CSV Preview

File uploaded successfully! 

CSV Preview & Validation

File: Leads_05-12.csv

Size: 2.4 MB

Format: Valid CSV 

Rows Found: 150

Preview Table:

#	Name	Phone
1	Rajesh	987654..
2	Priya	982345..
3	Amit	876543..
..	...	...

Validation Results:

 Total Valid Rows: 147

 Duplicates Found: 2

 Invalid Rows: 1

[\[Show Errors\]](#) [\[Proceed\]](#)

Understanding Preview:

Status	Meaning	Action
 Valid Rows	Good data, ready to import	Will be imported
 Duplicates	Phone # already in system	Review if needed
 Invalid	Bad/missing data	Show details
 Warnings	Minor issues (phone format)	Can still import

Step 5: Check Validation Results

If errors found:

 1 Invalid Row Found

Row 47: Incomplete Data

- └ Missing: customer_name
- └ Phone: 9876543210
- └ Action: Fix in CSV and re-upload

Row 89: Invalid Phone Number

- └ Field: "ABC-1234567"
- └ Error: Not numeric
- └ Action: Check format in CSV

Duplicate Mobile Numbers

- └ Row 12: 9876543210 (already in system)
- └ Row 45: 9876543210 (current import)
- └ Action: Keep first, skip duplicate

Your options: 1. Proceed Anyway, 2. Fix & Re-upload, 3. Show Details

Step 6: Confirm & Import

Ready to Import? ✓

Batch Summary:

- └ File: Leads_05-12.csv
- └ Valid Rows: 147
- └ Will Import: 147
- └ Duplicates: 2 (skipped)
- └ Batch Name: Batch_2026-05-12
- └ Import Date: 2026-05-12

[Cancel] [Proceed with Import]

1. Review the summary
2. Verify counts are correct
3. Click "Proceed with Import"
4. Progress bar appears: Importing leads... 45/147 
5. Success message:

 Import Successful!

Batch ID: Batch_2026-05-12
Imported: 147 leads
Duplicates: 2 (not imported)
Failed: 1 (manual fix needed)

[View Admin Dashboard] [Assign Leads Now]

Step 7: View Recent Imports

Recent Import History:

Batch_2026-05-12 (Today)

- └ File: Leads_05-12.csv
- └ Imported: 147 ✓
- └ Status: Active (Ready to assign)
- └ Duplicates: 2
- └ Actions: [View] [Delete] [Archive]

Batch_2026-05-11

- └ File: Follow-ups_batch.csv
- └ Imported: 85 ✓
- └ Status: Assigned (All distributed)
- └ Duplicates: 0
- └ Actions: [View] [Archive]

Batch_2026-05-10

- └ File: Campaign_A_results.csv
- └ Imported: 420 ✓
- └ Status: Completed (75% converted)
- └ Duplicates: 12
- └ Actions: [View] [Archive]

Managing Import Batches

Batch States

Batch Lifecycle:

Created → Active → Assigned → Completed → Archived

Active: Newly imported, Waiting for distribution, Ready for lead assignment

Assigned: Leads distributed to team, Team actively calling, Batch in progress

Completed: All leads processed, Calling finished, Results recorded

Archived: Old batch stored, Not in active queue, Historical reference

Viewing Batch Details

Batch Details: Batch_2026-05-12

```
|— Upload Date: 2026-05-12 10:30 AM
|— Uploaded By: admin@company.com
|— Total Leads: 147
|
|— Distribution Status:
|   |— Unassigned: 120 (81%)
|   |— Assigned: 25 (17%)
|   |— Completed Calls: 2 (1%)
|
|— Call Results Summary:
|   |— Interested: 0
|   |— Not Interested: 0
|   |— Converted: 0
|   |— Follow-Up: 2
|   |— No Response: 0
|
|— Batch Status:  Active (Ready for assignment)
```

Archiving a Batch

Use when batch is complete and you want to clear active queue. Archiving removes from active list, keeps in database for history, frees dashboard space.

Deleting a Batch (Permanent)

 **Caution:** This is irreversible! Batch can ONLY be deleted if: No assigned leads remaining, No call records associated, Not currently assigned to any team member.

 PERMANENT DELETION 

Validation Checklist:

- ☐ I understand this is permanent
- ☐ I've backed up important data
- ☐ No leads are assigned
- ☐ No active calls on this batch
- ☐ Confirmed batch to delete
- ☐ Type "DELETE" to confirm

[Type confirmation...]

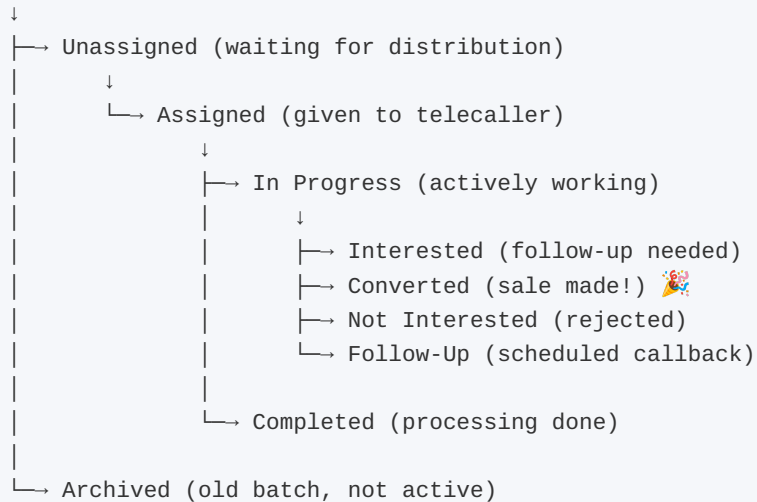

[Cancel] [Permanently Delete]

5. Lead Assignment System

Understanding Lead States

Lead Lifecycle:

Created

Lead Assignment Methods

Method 1: Quick Select (Simple Distribution)

Step 1: Navigate to Lead Assignment → Shows "Unassigned" tab

Step 2: Quick Select Box

Quick Select Distribution
How many leads to assign?
[Dropdown: 10 ▼]
[Clear Selection] [Next]

Step 3: System Auto-Selects first X leads

Step 4: Select which telecaller gets these leads and Assign

Method 2: Smart Distribution (Balanced)

Step 1: Open Smart Distribution

Step 2: Select Team Members

Select Telecallers to Assign:
☒ Priya Sharma
☒ Amit Patel
☒ Pooja Gupta
[3 selected]

Step 3: Enter Total Leads (e.g., 75 leads)

Step 4: Handle Remainder (System smartly distributes remainder)

Step 5: Confirm & Assign → Click "Distribute Now"

Method 3: Single Lead Assignment

Step 1: View Lead in Table and Click Assign icon

Step 2: Select Telecaller from list

Step 3: Confirm assignment

Assignment Tabs Overview

Unassigned Tab

Shows: All leads NOT yet distributed
[Quick Select] [Smart Dist]

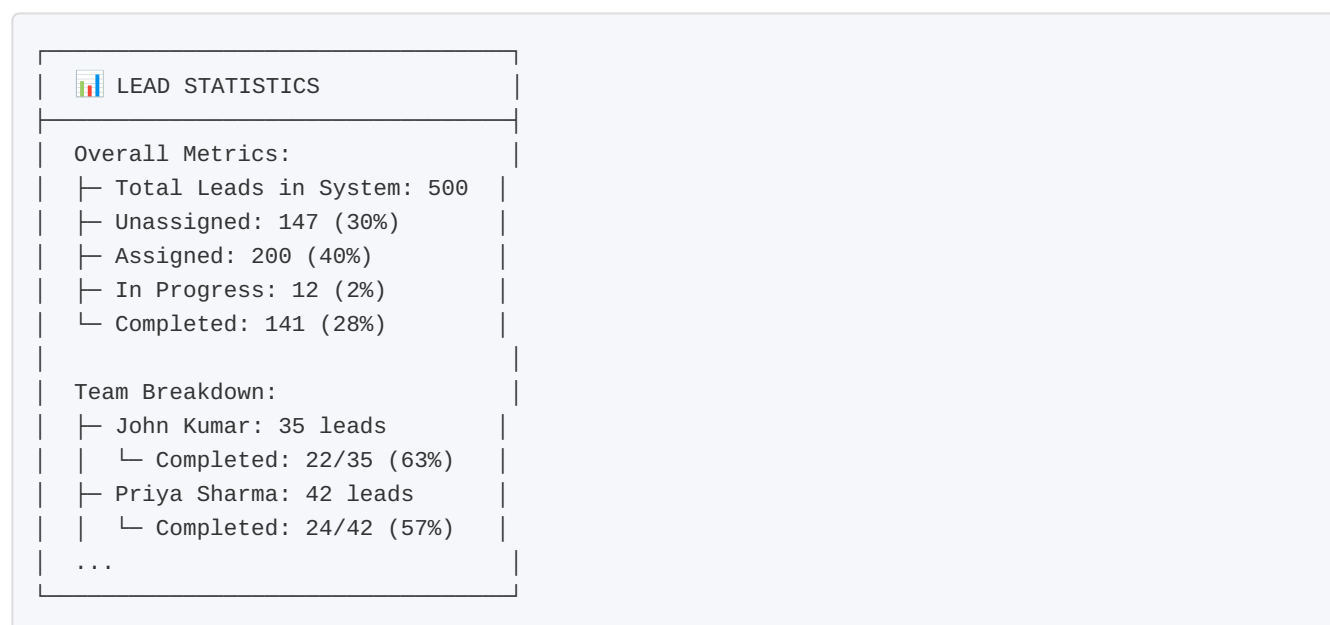

Assigned Tab

Shows: All leads CURRENTLY assigned to someone
[Reassign] [View Details]

In Progress Tab

Shows: Leads currently being worked on
Real-time update (refreshes)

Statistics Panel

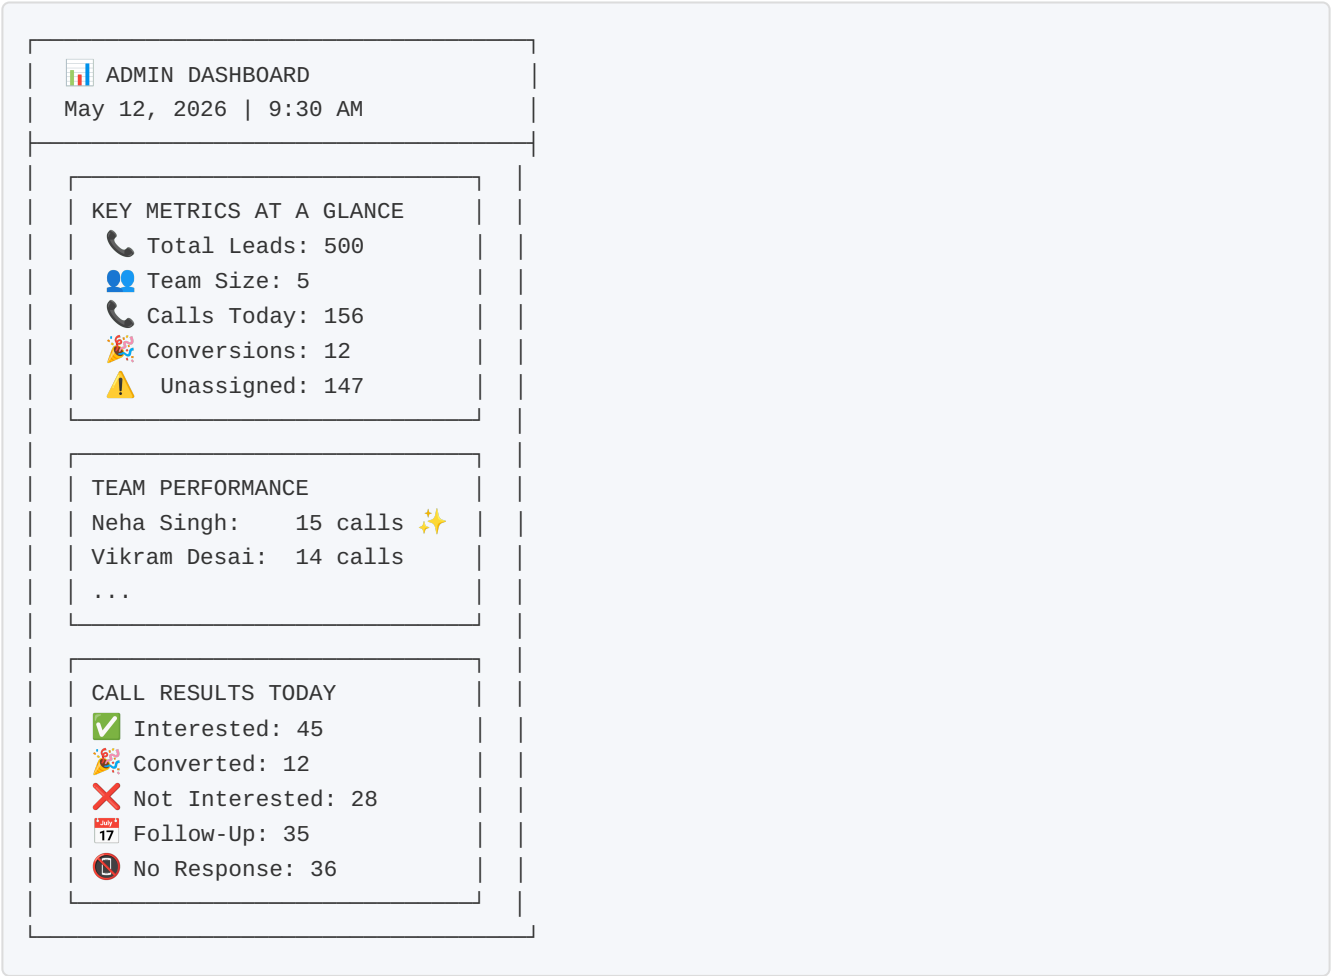

Bulk Reassignment

1. Go to Assigned Tab
2. Filter by person leaving: "John Kumar"
3. Select all (checkbox at top)
4. Click "Bulk Reassign"
5. Select new teammate: Priya Sharma
6. Confirm reassignment

6. Monitoring & Dashboard

Admin Dashboard Overview

Key Metrics Explained

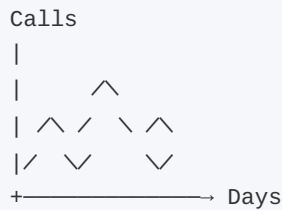

Metric	What It Shows	Good Range
Total Leads	All leads in system	100-1000
Calls Today	Total calls made today	50-300+
Conversions	Leads who purchased	5-10% of calls
Unassigned	Waiting for distribution	0-20%
Follow-Ups	Callbacks scheduled	10-30%

Charts & Visualizations

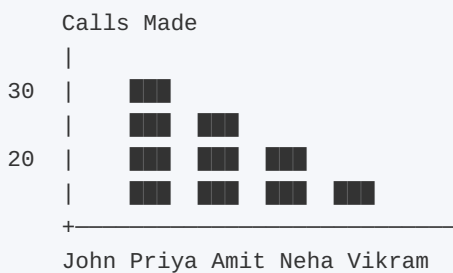

Lead Status Distribution Chart

```
Unassigned: 30% (pie slice)
Assigned: 40%
In Progress: 2%
Completed: 28%
```

Daily Calls Trend

Team Performance Breakdown

7. Team Performance

Viewing Individual Performance

Member Profile

 John Kumar Profile

Email: john@company.com

Status: Active 

Performance Metrics:

- | Total Leads: 35
- | Completed Calls: 22
- | Conversion Rate: 63%
- | Interested: 8
- | Converted: 5 
- | Not Interested: 9
- | Follow-Ups: 12

Call History

Date	Customer	Phone	Status
05-12 4PM	Rajesh Kumar	987654...	Interested
05-12 3PM	Priya Sharma	982345...	Converted 
05-12 2PM	Amit Patel	876543...	Follow-Up 

Comparative Analysis

Team Rankings

Performance Leaderboard - May 2026 (YTD):

Rank	Name	Calls	Conversions	Rate
1	Vikram Desai 	156	24	15.4%
2	Neha Singh	142	19	13.4%
3	Priya Sharma	138	17	12.3%

Workload Distribution

Leads per Team Member:

John Kumar:	35 leads		(20%)
Priya Sharma:	42 leads		(24%)
Amit Patel:	38 leads		(22%)
Neha Singh:	45 leads		(26%)
Vikram Desai:	40 leads		(23%)

Identifying Bottlenecks

Warning Signs:

-  Team member with 0 calls in last 24 hours
-  Low conversion rate (< 8%)
-  High "No Response" (> 30%)
-  Too many "Follow-Ups" (> 40%)
-  Unassigned leads > 50% of total

Actions to take:

-  Call person, check if internet ok
-  Ask what's blocking them
-  Reassign some leads to help
-  Review their call notes
-  Offer training/coaching

8. Daily Operations Workflow

Morning Routine (Admin)

```
MORNING - 9:00 AM
|
├ Step 1: Check Dashboard (5 mins)
├ Step 2: Prepare Leads for Distribution (10-15 mins)
├ Step 3: Distribute Leads (5-10 mins)
├ Step 4: Brief Team (2 mins)
└ Step 5: Monitor First 30 Minutes (5 mins)
Total Morning Time: ~30-40 minutes
```

Mid-Day Check-In (Admin)

```
MIDDAY - 1:00 PM
|
├ Step 1: Quick Dashboard Review (3 mins)
├ Step 2: Check For Issues (5 mins)
├ Step 3: Performance Feedback (5 mins)
└ Step 4: Prepare Afternoon Updates (2 mins)
Total Mid-Day Time: ~15 minutes
```

Evening Summary (Admin)

```
EVENING - 6:00 PM
|
├ Step 1: Daily Performance Review (5 mins)
├ Step 2: Generate Daily Report (10 mins)
├ Step 3: Follow-Up Due Tomorrow (5 mins)
├ Step 4: Tomorrow's Preparation (5 mins)
└ Step 5: Document & Archive (5 mins)
Total Evening Time: ~30 minutes
```

Weekly Review (Admin)

```
WEEKLY - Friday 5:00 PM
|
├ Step 1: Weekly Statistics (10 mins)
├ Step 2: Team Performance Review (15 mins)
├ Step 3: Lead Quality Assessment (10 mins)
├ Step 4: Next Week Planning (10 mins)
└ Step 5: Generate Weekly Report (15 mins)
Total Weekly Time: ~60 minutes
```

9. Reports & Analytics

Available Reports

Daily Call Summary

Report: Daily Calls - May 12, 2026
Total Calls: 156
└ Interested: 45 (29%)
└ Converted: 12 (8%) 🎉
└ Not Interested: 28 (18%)
└ No Response: 36 (23%)
└ Follow-Ups: 35 (22%)

Cumulative Performance

Report: Team Performance - May Year-to-Date

Total Calls (MTD):	1,243
Total Conversions:	156
Conversion Rate:	12.5%
Team Size:	5
Avg Calls/Person:	248.6
Avg Conversions:	31.2
Avg Rate:	12.5%

Lead Pipeline Analysis

Report: Lead Pipeline Status - May 2026
Total Leads in System: 500
Status Breakdown:
└ Unassigned: 147 (30%)
└ Assigned: 200 (40%)
└ In Progress: 14 (3%)
└ Interested: 60 (12%)
└ Follow-Up: 45 (9%)
└ Converted: 34 (7%)

Individual Performance Report

Report: Neha Singh - May 2026
Total Calls: 142
Conversions: 19
Conversion Rate: 13.4%
Avg Calls/Day: 14.2
Leads Assigned: 45

Exporting Reports

-  **CSV** - Open in Excel
-  **PDF** - Print/share
-  **Chart Image** - For presentations

Setting Report Filters

Common Filters:

Date Range: Today, This Week, This Month, Custom Dates

Team Member: All, Individual (dropdown)

Lead Source: All Batches, Specific batch

Status: Converted, Follow-up, Not interested, All statuses

10. Troubleshooting & Maintenance

Common Issues

Issue: Leads Not Showing in My Leads Queue

Problem: Telecaller assigned leads but can't see them

Solutions:

Step 1: Verify Assignment

Step 2: Clear Cache/Cookies

Step 3: Check Firestore Access

Step 4: Force Sync (Log out completely and log in)

Issue: CSV Import Fails

Problem: Upload says "Import failed" or validation errors

Solutions:

Step 1: Validate CSV (Headers, Numeric phone numbers)

Step 2: Try Small Batch First

Step 3: Check for Hidden Characters (Excel text-to-columns)

Step 4: Contact Support

Issue: Real-Time Updates Lagging

Problem: New leads don't appear immediately, stats slow to update

Solutions: Check Network, Clear Cache, Check Firebase Status, Update Browser

Issue: Can't Assign Leads

Problem: Assignment buttons disabled or not responding

Solutions:

Step 1: Check Leads Are Unassigned

Step 2: Check User Selection

Step 3: Check Permissions (Admin required)

Step 4: Full Page Refresh

Issue: Performance Getting Slow

Problem: Dashboard loads slow, buttons lag

Fixes to Try:

- └ Archive old batches (clears active list)
- └ Close unnecessary browser tabs
- └ Clear browser cache & cookies
- └ Use faster browser (Chrome > Firefox)
- └ Refresh page (F5)
- └ Upgrade internet (if possible)
- └ Try during off-peak hours

Maintenance Tasks

Daily Maintenance

Daily Checklist (takes ~5 min):

- ☐ Check dashboard for errors
- ☐ Verify no leads stuck in "In Progress"
- ☐ Review any failed imports
- ☐ Monitor team member online status
- ☐ Backup important reports

Weekly Maintenance

Weekly Checklist (takes ~30 min):

- ☐ Archive completed batches
- ☐ Review & delete invalid leads
- ☐ Check user account status
- ☐ Test disaster recovery plan
- ☐ Review Firebase logs for errors
- ☐ Update team access if needed
- ☐ Export & store backup reports

Monthly Maintenance

Monthly Checklist (takes ~2 hours):

- ☐ Full database audit
- ☐ Check Firebase security rules
- ☐ Review performance metrics
- ☐ Plan capacity for next month
- ☐ Update documentation
- ☐ Review & rotate credentials
- ☐ Full backup (all data)
- ☐ Performance optimization analysis

Data Backup Strategy

Option 1: Manual Export (CSV/PDF)

Option 2: Firebase Backup (Automatic daily backups)

Option 3: Custom Scripts (Google Cloud Storage)

Recommended: Small team (Manual monthly), Medium team (Firebase auto daily)

11. Best Practices

Lead Management Best Practices

DO:

- └ Validate CSV before uploading
- └ Use consistent date formats
- └ Remove duplicates in advance
- └ Use descriptive batch names
- └ Archive completed batches
- └ Keep organized naming scheme

DON'T:

- └ Upload same list twice
- └ Mix old and new leads
- └ Leave leads unassigned > 1 week
- └ Import without testing format
- └ Delete batches without backup
- └ Upload suspicious data sources

Team Management Best Practices

Motivation & Incentives

What Works: Daily leaderboard, Weekly recognition, Friendly competition, Milestones.

What Doesn't Work: Scolding publicly, Unrealistic targets, Micromanaging.

System Administration Best Practices

Security Best Practices:

- └ Change master admin password monthly
- └ Limit admin accounts (1-2 people max)
- └ Enable Firestore security rules
- └ Test access controls regularly

Operational Best Practices:

- └ Monitor dashboard metrics daily
- └ Keep software updated
- └ Document critical procedures
- └ Test disaster recovery quarterly

Telecommunications Best Practices

Call Quality:

Ensure quiet environment, Use headset, Speak clearly and slowly, Listen more than you talk.

Script Template:

"Hi [Name], this is [Your Name] from [Company].

I'm calling because [Reason].

Do you have a few minutes to discuss?"

Glossary for Admins

Term	Definition
Batch	Group of leads imported from one CSV file
Unassigned	Leads not yet given to any team member
Conversion	When a lead makes a purchase (sale)
Conversion Rate	% of leads who purchased (conversions ÷ calls)
Lead Status	Current state (Unassigned, Assigned, Completed, etc.)
Dashboard	Main admin view with key metrics
Role	Permission level (Admin vs Telecaller)
Real-time	Updates instantly as data changes
Firestore	Cloud database storing all lead/user data
Security Rules	Controls who can access what data

Support & Escalation

Emergency Support:

- └ Email: support@teleflowcrm.com
- └ Phone: Available during business hours
- └ Status Page: status.teleflowcrm.com
- └ Response Time: < 2 hours for critical

For Urgent Issues:

1. Document the problem
2. Take screenshots/videos
3. Provide error messages
4. Describe steps to reproduce
5. Mention # of team members affected
6. Send to support@teleflowcrm.com

Next Steps

First Week Setup
