1. Getting Started

What is TeleFlow CRM?

TeleFlow CRM is a **lead management and call tracking system** designed specifically for telecalling teams. It helps you:

-  Manage a queue of customer leads to call
-  Track call outcomes and status
-  Schedule follow-ups efficiently
-  View your performance metrics
-  Auto-advance to the next lead (save time!)

System Requirements

- Modern web browser (Chrome, Firefox, Safari, Edge)
- Stable internet connection
- Mobile phone for making calls
- Valid TeleFlow CRM login credentials

First Time Setup

Your admin will:

1. Create your user account with email and password
2. Send you login credentials
3. Assign you your first batch of leads
4. You're ready to go!

2. Logging In

Step-by-Step Login Process

- 1. Open the App**
 - Go to your company's TeleFlow CRM URL
 - You'll see the login page
- 2. Enter Your Email**
 - Input the email your admin provided
 - Example: `yourname@company.com`
- 3. Enter Your Password**
 - Use the password sent by your admin

- Note: Save it securely

4. Click "Sign In"

- If credentials are correct, you'll be logged in
- Redirected to your dashboard

Forgot Password?

- Contact your **admin** - they can reset your password
- Don't share your credentials with anyone

Session Timeout

- For security, you'll be logged out after inactivity
- Log back in with your credentials
- All your work is saved

3. Dashboard Overview

When You First Log In

You'll see the DASHBOARD page which shows:

Welcome, [Your Name]! 🙌

Lead Status Indicators

Status	Meaning	Action
 Pending	Not yet called	Call now
 In Progress	You're currently working on it	Continue
 Completed	Call is done	Move to next
 Follow-Up	Needs callback later	Check follow-up date

5. Making Calls

Before You Call

1. **Review Customer Details:** Read the name and phone number, Check the priority flag, Review any remarks about them.
2. **Note Previous Call History:** Previous call status, Last notes from last interaction, Follow-up dates scheduled.
3. **Prepare Your Notes:** Have a notebook ready, Pen for writing quick notes, Service details if needed.

How to Make the Call

- **Option 1: Click Phone Number (Auto-Dial):** Click the phone number directly, Your phone's dialer opens, Dial without typing.
- **Option 2: Manual Dialing:** Note the phone number, Open your phone, Manually dial the number.
- **Option 3: VoIP Integration:** Built-in call button makes call through app, Hands-free options available.

During the Call

Call Duration Tips:

- └ Average call: 2-5 minutes
- └ Listen actively: Understand their needs
- └ Take notes: Write down key points
- └ Be professional: Polite and clear
- └ Handle objections: Address concerns calmly

If Calls Fail

- **Can't reach the customer?** Try again after 5 minutes, Check if number is correct, Note in feedback: "No response", Move to next lead.
- **Wrong number?** Verify the phone number, Mark as "Invalid Number", Contact admin to check database.
- **Customer asks to call later?** Select "Busy" or "Follow-Up Needed", Schedule callback for later, System will remind you.

6. Call Screen Guide

After Making the Call

Once your call ends, you'll see the **Call Logging Screen**.

Call Status Options Explained

-  **Interested:** Customer shows genuine interest. Next step: Follow-up call or conversion.
-  **Follow-Up Needed:** Customer wants to discuss later. Next step: Schedule callback date/time.
-  **Not Interested:** Customer explicitly refuses. Next step: Lead removed from active queue.
-  **Busy:** Customer is currently busy. Next step: Retry in short time (24-48 hours).
-  **No Response:** Customer didn't pick up. Next step: Voicemail left, or no answer.
-  **Switched Off:** Number unreachable. Next step: Contact admin to verify number.
-  **Converted:** Customer made a purchase! Next step: You've successfully sold! Lead moved to "Converted".
-  **Invalid Number:** Number is incorrect. Next step: Report to admin for database fix.

Filling in Feedback Notes

Optional but Highly Recommended

TeleFlow CRM - User Guide v1.0

Page 8 of 15

What to include:

- └ Customer's main concern
- └ Their specific needs
- └ Any promises you made
- └ Best time to call back
- └ Personal details (name pronunciation, etc.)
- └ Next action items

Good Note Example:

"Rajesh is interested in 100 Mbps plan.
Wife needs to approve. Call back Friday 6PM
after office. Speak slowly - hearing issue."

Bad Note Example:

"Busy" or "Will call later"
(Not specific enough for next call)

Setting Follow-Up Dates

If you select " **Follow-Up Needed**":

1. **Pick a Date:** Click on calendar widget, Select the callback date.
2. **Note the Time:** Add time if customer specified, Write in feedback notes: "Callback at 2PM".
3. **System Reminder:** On that date, lead appears in "Follow-Ups" page, You'll be reminded to call back.

Saving Your Entry

- **"Save & Next Lead"** (Primary Action): Saves your call data, Auto-advances to the next lead instantly, No page refresh needed.
- **"Save"** (Save Only): Saves without auto-advance, You choose when to continue.
- **"Cancel"**: Discards unsaved changes, Returns to lead without saving.

7. Follow-Up Management

What are Follow-Ups?

Leads that need **callback on a specific date** because: Customer said "call me back later", Need time to think, Temporarily busy, You promised to call on a specific date.

Accessing Follow-Ups

1. Click "Follow-Ups" in left sidebar
2. Or from dashboard → "View Follow-ups" button

Making Follow-Up Calls

1. Check Today's Follow-Ups First
2. Review Previous Notes: What was the last conversation? What did you promise?
3. Call the Customer: Click phone number to dial, Be friendly and reference previous call.
4. Log the Outcome: Same as regular call workflow, Select status, Add new notes, Save & Next.

Best Practices for Follow-Ups

✅ **DO:** Call on or before the scheduled date, Start with: "We spoke about X...", Reference previous notes, Be professional and timely.

❌ **DON'T:** Miss scheduled follow-up dates, Call at wrong time, Forget what was discussed, Be pushy if they still need time.

8. Profile & Settings

9. Tips & Best Practices

Productivity Tips

1. Work Through Your Queue Systematically

Morning Routine:

1. Log in early
2. Check today's follow-ups first
3. Start from "Lead 1 of X"
4. Work through continuously
5. Use "Save & Next" for speed
6. Take lunch after first 25 leads

2. Master the "Save & Next" Feature

Fastest way to move through leads, Auto-advance saves 5-10 seconds per lead, Over a day: saves 30-60 minutes! 🕒

3. Use Notes Effectively

First call: Write detailed notes. Follow-up call: Read old notes. Include: Needs, objections, promises.

4. Manage Call Quality vs Quantity

Balance:

- └ Don't rush (bad customer experience)
- └ Don't spend 30min per call (low productivity)
- └ Sweet spot: 3-5 minutes per call
- └ Quality builds repeat business

Call Handling Tips

- **For Receptionist/Gatekeeper:** Be polite, Ask: "May I speak with [Customer]?", Note status.
- **For Interested Customers:** Listen actively, Clarify benefits, Ask for decision, Schedule follow-up.
- **For Objection Handling:** Listen fully, Acknowledge concern, Address with info, Try again.
- **For "Not Interested":** Respect decision, Get reason (optional), Leave door open, Log accurately.

Time Management

Task	Time	Tips
Per Call	3-5 min	Include dialing + talking
Per Lead Entry	1 min	Quick status + note
Per 50 Leads	3-4 hours	With breaks
Follow-ups	Priority	Scheduled customers first

Handling Difficult Situations

- **Customer is Rude:** Stay calm, don't take personally, log as "Rude, not interested".
- **Can't Reach Customer:** Try 2-3 times, mark "No Response", move on.
- **Technical Issue During Call:** Note details, explain "I'll call back", resolve issue.
- **Lead Information is Wrong:** Verify, mark "Invalid Number", contact admin.

10. Troubleshooting

I Can't Log In

Solutions: Check internet, Clear browser cache, Verify email/caps lock, **Contact admin to reset password.**

My Leads Aren't Showing

Solutions: Refresh page, Check if admin assigned leads, Try logging out and back in.

Phone Number Won't Dial

Solutions: Manually copy/paste number, Use different browser, Try Wi-Fi.

Can't Save Call Entry

Solutions: Check internet, Make sure Call Status is selected, Try "Save" instead of "Save & Next".

Follow-Up Dates Not Showing

Solutions: Scroll down to calendar, Select "Follow-Up Needed", Check browser date/time.

Call Status Got Wrong - Can I Fix It?

Solutions: Go back to lead, Click to edit, Update status, Save again, Or contact admin.

Performance is Slow

Solutions: Check internet speed, Close tabs, Clear cache, Use modern browser.

I'm Assigned While Another User Was on That Lead

Solutions: System prevents this, wait a few minutes, or contact admin.
